intelliguard®
RFID Solutions for Critical Inventory

Three Systems. Unlimited Visibility.

From pharmacy to point-of-care, Intelliguard® RFID Management Systems improve patient safety, reduce costs, and increase staff efficiency.

Our suite of systems provide unprecedented real-time visibility of your high-value, critical-dose medication inventory.

- Automate error-prone tasks and processes
- Eliminate manual counting and item-level scanning
- Optimize inventory levels
- Monitor expiration dates and lot numbers
- Meet compliance requirements
- The right drugs, in the right doses – when and where you need them

Contact MEPS Real-Time® today and discover how our Intelliguard® solutions can increase your inventory visibility.
