

TSX Series high-performance refrigerators and freezers—NSF/ANSI-certified for vaccine storage

A better environment inside and out

Thermo Scientific™ TSX Series high-performance pharmacy refrigerators and freezers are designed with features that support sample protection and sustainability standards for the storage of pharmaceuticals, vaccines, chemotherapeutics, and other medical- and pharmacy-grade materials. Certified to the NSF/ANSI 456 Vaccine Storage Standard, the TSX Series can help you meet vaccine storage and handling regulations and guidelines from the CDC, WHO, and other health ministries.

TSX Series high-performance refrigerators and freezers have completed the process to obtain the ACT™ Environmental Impact Factor Label, which is designed to address the need of both scientists and procurement specialists for clear, third party-verified information about the environmental impact of laboratory products.

The TSX Series delivers the performance and quality you need with the whisper-quiet, energy-efficient, and exceptional user experience you deserve.
