503 

We're like an elevator. We eliminate steps for pharmacists.

Less steps means our product is easier and faster to use. Yet, provides safety and accuracy to make your processes more effective and efficient. Pentec's 503B combines validated automation and process quality controls to make concentrated, single-dose products you can trust. We offer the peace of mind of a manufacturer with the efficiency of an outsourcing provider – enabling safe accurate medication, when it's needed, where it's needed, the way it's needed. Less waste means greater value. To learn more please visit pentechealth.com.
