

“WITH REMOTE
DISPENSING —
MEDS ARE
AVAILABLE TO
RESIDENTS
24/7/365.”

Stephen Cutshaw
Administrator of Licensed Facilities
— C.C. Young

C.C. Young adopted InSite Remote Dispensing technology, through its pharmacy, in 2010. InSite provides immediate access to pharmacist-approved medications before each medication pass, or on-demand to facilitate new residents, First Doses, STAT orders, and PRNs. The result – improved efficiencies and reduced costs, while ensuring residents are receiving the highest quality of care.
