

Perfect Counting.

Kirby Lester's New KL1: Our smallest, fastest tablet counter

Hand-counting is a thing of the past with Kirby Lester's KL1. Whether your pharmacy dispenses 50 or 500 prescriptions per day, the KL1 saves you time, money and effort.

Small – Just 6" x 12", the KL1 is our most compact counter.

Fast – Speeds up 30-counts and 90-day fills alike; count at a rate of 15-18 tablets per second.

Accurate – Counts almost any tablet or capsule with Kirby Lester's world-renowned technology.

Affordable – Plus, you will save money and time from Day 1 by eliminating overcounts and undercounts.

Fits anywhere!
The KL1 is about
the size of a
traditional
counting tray

Kirby Lester's full line of pharmacy automation includes the KL20 and KL30 counting and verification systems, and the KL60 compact robot.
