

# 9 OUT OF 10 PHARMACISTS APPROVE.\*

“In my 18 years as a pharmacist, I cannot think of another medical intervention as simple, effective, and risk free as this product. DripDrop quickly replaces lost fluids and electrolytes, so it can really help the dehydrated athlete, the sick child, or the adult with allergies/illness. I cannot recommend this product highly enough.”

Roby K. Registered Pharmacist, Nevada.

- 3X the electrolytes and half the sugar of sports drinks.
- 25% more electrolytes than pediatric solutions.
- Clinically shown to hydrate 34% better than water alone.
- Tastes Great. Really!
