

Integrated Temperature Monitoring with i.C3[®] Information System

Optimize performance and efficiency with powerful, intuitive, secure data

Real-Time Monitoring

Intuitive high-level and comprehensive performance data available at a glance.

Enhanced Alarm Capabilities

View, acknowledge, and review alarm conditions in real-time.

Advanced Reporting Features

Review up to 10 years of historical temperature, alarm, and other performance data on-screen, or via export.

FDA-Recognized Cybersecurity Conformity

Tested and passed cybersecurity vulnerability testing aligned with FDA-recognized medical device cybersecurity standards.
