

Flexibility is Key in a Post COVID Environment

We've changed the playbook when it comes to adding automation to your pharmacy.

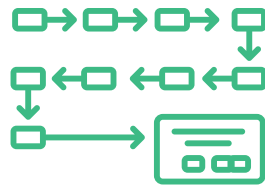

DOSIS Systems Gives Your Pharmacy Options

Configuration

Each Tower is approximately the size of a vending machine and can be configured to what works best in your pharmacy. No major buildout is required. Have peace of mind that as your pharmacy grows, our system is easily reconfigurable to fit your workroom needs.

Workflow

From integrating your Pharmacy Management Software to understanding your pharmacy's physical layout - DOSIS Systems builds a system specific to your pharmacy's needs.

Pricing

DOSIS Systems offers a monthly subscription that allows you to have the assurance that automation is right for you and your team. Ultimately, we work to add value to your pharmacy every month.

We'd love to give you a demonstration!

Seeing is believing with the DOSIS System. We can give you a full demo of a working system so you can see for yourself the value of DOSIS workflow.
