

Pharmacies using automation are less affected by staffing challenges

With rising labor costs and limited labor pools to choose from, automation is becoming the best solution for pharmacies all over the country.

DOSIS Systems automates the portions of your pharmacy that don't require human contact including processing scripts from your PMS, printing labels, adjusting inventory, and sending scripts to autonomous blister card filling.

We'd love to give you a demonstration!

Seeing is believing with the DOSIS System. We can give you a full demo of a working system so you can see for yourself the value of DOSIS workflow.

Hear how MChest Pharmacy saves money each month...

What pharmacies are using DOSIS Systems?

Those whose operations require...

- On-demand Filling
- Cycle Filling
- Pre-packaging

Let us demonstrate how we can automate your workflows!
