

Real Automation From Start to Finish.

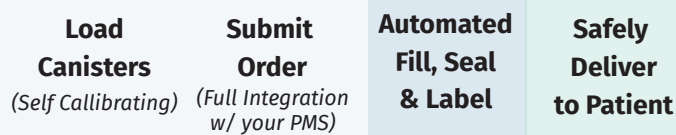

DOSIS Systems fully automates blister-card production using your Pharmacy Management System (PMS), increasing patient safety by limiting human error.

We Improve your pharmacy efficiency, productivity and bottom-line by putting your pharmacy workflow first.

We'd love to give you a demonstration.

DOSIS Full Automation

Compare DOSIS Systems with any other blister-card product and you will find that we are the only fully-automated system. From the point of loading canisters to filled, sealed and labeled cards there is nothing like it.
