

# Confidence Delivered

## EDGE®

Wireless. Connected. Sensors.

Optimize your packout designs for temperature exposures using **EDGE® wireless sensors** and software apps. Simplify Performance Qualification (PQ) testing to meet accreditation requirements, and know that your packaging is performing to your standards.

### Temperature Intelligence®

## TransTracker®

Reduce the risk and costs associated with unpredictable temperature events in production, storage and shipment. **TransTracker® temperature indicators help** specialty pharmacies save money and increase patient confidence in medications delivered.
