

# PCCA Lipoderm® is on target.

*The only transdermal vehicle  
proven to deliver four drugs at  
once through human skin in vitro.*

- Lipoderm®
- Lipoderm ActiveMax™
- Anhydrous Lipoderm®
- Lipoderm High Molecular Weight™ (HMW)

As pharmacists are called upon to formulate transdermal products with multiple drugs, **they can now turn to Lipoderm** – the most studied transdermal vehicle in the compounding industry available exclusively from PCCA.

The latest study on Lipoderm by PRACS Institute/Cetero Research in North Dakota has confirmed that simultaneous delivery of four drugs is possible!

In addition, rigorous testing has proven that Lipoderm...  
...is a hypoallergenic, elegant alternative to traditional PLO gels  
...consistently outperforms the competition in effectiveness  
...is a vehicle that has been proven to increase permeation of actives  
...is a stable system with great resiliency in the presence of a wide variety of drug substances

## Compound with Confidence.

To order PCCA Lipoderm, simply log onto the PCCA Members-only Site at [PCCARx.com](http://PCCARx.com) or call a PCCA Customer Service Representative today.
