

The PCCA API Difference

- Every lot – not just the initial lot – is tested
- A total of 14 checks and analyses are performed before being sent out
- PCCA rejects about 180 chemical lots per year, or just over three lots received per work week

NOT ALL COMPOUNDING PHARMACIES ARE CREATED EQUAL. ONLY PCCA MEMBER PHARMACIES HAVE ACCESS TO THE BEST EDUCATION, TRAINING AND CHEMICALS AVAILABLE.

Your PCCA member pharmacist partner brings to the triad relationship:

- Access to the **broadest range of active/non-active chemicals** available
- Chemicals that go through an **exhaustive 14-step quality assurance process**
- Access to the **largest clinical consulting team** in the industry
- The largest family of **proven transdermals and bases**
