Claude Farrier (719) 375-5974 (819) 665-5858 (719) 885-4211 2.0-3.0

Dosage (mg)

Previous period dosage(mg) Mon Tues Wed Thur Fri Sat Sun Weekly INR test date: 2011-09-30

Previous: 2.0 2.0 2.0 1.5 2.0 1.5 2.0 13.0 INR result then 3.5 High

Step 1: Enter/modify INR result for current period

2011-10-20 2.8 Therapeutic

Number of days since last test 20 Diff. from previous -0.70

Blood function Hypertension Adverse Event

Platelets 0 HB 0 Creat. 0 Cl. Creat. 0

Step 2: Modify/adjust dosage for current period

Sequential dosage Patient's tablets: 1 mg, 2 mg

Current period dosage Mon Tues Wed Thur Fri Sat Sun Weekly Diff. %

New dosage 3 3 3 6 6 3 3 27.0 107.69

Exception (load/min) 0 0 0 0 0 0 0 Dosage by %

Activate load/min? Yes Yes Yes Yes Yes Yes

Step 3: Establish next INR test date, site calculate required tablets for the period (Smart dosage)

Next appointment in 28 Day(s) 2011-11-17 Test type

Test site Foothills Medical... Appt time: 00:00 Clinic workload Visit type

Step 4: Indicate if Vitamin K is required

LMWH Vitamine K

Step 5: Add any particular information for this session

Comment Patient/Fax note

“Our Coumadin clinic follows approximately 1000 patients. This program takes the guesswork out of calculating doses, making it safer for our patients. By automating much of the information it makes us more efficient, and shortens the time we need to care for patients. We particularly like the daily dosage sheets, which patients also like a lot as they find them easy to read and follow.”

Charles Pollick, MD
LA Cardiology Associates

“The program is designed by clinicians for clinicians. Pharmafile is always ready to add functionalities to suit our needs, and they have outstanding support!”

Vincent Landry, RPh
Brunet Pharmacies

**A complete software...
Intuitive and simple to use...**

Easy to use powerful tools:

- Adjustments, notes and reports generated from a few clicks.
- Documents for doctors and patients generated automatically.
