Cleanroom wipers look white but are they really clean?

Cleanroom wipers are made by hand, but people are the greatest source of contamination. A standard wiper adds great risk through introduction of dirt, particles and other unwanted intruders into your cleanroom.

Sterile Vertex, The Ultra-Clean Wiper.

Texwipe developed a patent-pending, fully-automated system to wash, cut and pack wipers without human hands. The robotic technology guides each wiper through its production and ensures consistency from wiper to wiper, bag to bag and lot to lot.
