Company Background

Medicine-On-Time is a comprehensive medication adherence partner that helps pharmacists grow their business through increased medication adherence and improved patient care. We support and empower pharmacists with the products, know-how, and assistance to better serve their business goals — especially as they relate to medication adherence and compliance packaging. With adherence packaging to fit every patient need and every pharmacy price point, technology solutions to streamline workflow, and a marketing and support team available at every turn, Medicine-On-Time helps pharmacists realize bigger opportunities through better patient care.

Product Overview

The C.A.R.E. Package is a new and innovative multi-dose adherence package that empowers your pharmacy to offer customized and personalized care for the patients who need it most. This one-of-a-kind solution not only helps your patients better manage their medications, but it also enhances the communication between your pharmacy staff, the patients you serve, and their doctors.

C.A.R.E. Package Features

- Available in monthly or weekly calendar formats.
- Color-coded and organized by dose time.
- Accommodates any days' supply up to 35 days in one package.
- Large-capacity removable dose cups hold up to 16 unique medications.
- Attached complete pharmacy label includes medication images and large print instructions.
- Custom branding and messaging prints on the package (pharmacy logo, coupons, patient messages, and more).
- Optional C.A.R.E. Plan documents the pharmacist consultation right on the patient's medication package.

C.A.R.E. Package Benefits

■ **It Supports the Appointment-Based Model:** The C.A.R.E. Package is available in a monthly calendar layout that aligns well with an appointment-based model. The comprehensive package keeps the patient on track in between pharmacy visits. The optional C.A.R.E. Plan attachment allows the patient to even record notes and reminders to themselves of topics they need to discuss with your pharmacy team on their next visit.

■ **It Increases Engagement With Other Members of Your Patients' Care Team:** Engaging other key members of your patients' care team not only increases the chance for success for your mutual patient, but it also gives your pharmacy team the opportunity to practice at the top of your license and expand services well beyond filling a prescription. The optional C.A.R.E. Plan even allows for pharmacists notes to the doctor right on the package.

■ **It Completes and Reinforces the Pharmacist's Consultation and Improves Patient Health Literacy:** It can sometimes be difficult for patients to retain important points discussed during the pharmacist consultation once they leave your pharmacy. With the optional C.A.R.E. Plan, the pharmacist can reemphasize key points discussed during the consultation right on the medication package, which can also help improve patient health literacy.

The Software That Makes It Possible

■ **About motNext, the Software That Drives the C.A.R.E. Package:** motNext is a unique software designed to organize and simplify the oftentimes complicated process of providing multi-dose adherence packaging to patients with complex needs. The software creates a proactive and efficient work environment in the pharmacy and takes the guesswork out of complex medication regimens and varying dose-capacity requirements. motNext drives and supports the process of creating a truly customized adherence package for each individual patient.

How Medicine-On-Time Supports Your Success

- **Optimize Workflow:** Nationally certified pharmacy technicians and IT professionals train and support pharmacy staff members to ensure maximum efficiency in the pharmacy.
- **Lower DIR Fees:** Experts coach your pharmacy on existing reporting tools that can help you reduce DIR fees and increase performance-based bonus opportunities.
- **Empower Your Staff:** The Medicine-On-Time team works directly with your technician to successfully launch your adherence program. Technicians who complete the program will receive a \$100 gift card!
- **Promote Your Pharmacy Services:** Medicine-On-Time's marketing assistance program supports your pharmacy in promoting your adherence solution with customized digital and printable marketing resources.
