Company Background

Humco Compounding is built on a proud history of more than 142 years manufacturing quality products for the pharmaceutical industry.

Through our innovative spirit and continued investment in research and development, we have established a reputation for creating, developing and manufacturing a diversified line of high quality non-sterile topical and oral pharmaceutical compounding bases. Our compounding bases are tailored to meet the non-sterile needs of compounding pharmacists while reducing the compounding preparation time along with the goal of improving the therapeutic outcome for your patients.

In addition to our innovation, we take pride in our exceptional customer service and our product quality. Our products are developed and manufactured adhering to the highest product quality standards. Humco is an FDA-registered establishment, in compliance with current Good Manufacturing Practices (cGMP).

We are committed to research and development, leading the way in Beyond-Use-Date (BUD) testing, absorption, and transdermal penetration studies. We are continually conducting scientific testing and studies, providing a valuable resource to our compounding pharmacists.

Product Overview

Humco Compounding – the compounding pharmacist's go-to resource for high quality topical and oral compounding bases and vehicles. We offer a diverse line of ready-to-use topical creams and gels to oral syrups and suspensions. Our bases are designed to provide the optimal delivery system for a specific formulation based on the desired route of administration and therapeutic intent. See our full line of compounding products at: www.humcocompounding.com

■ Humco Compounding Bases and Vehicles

- Specifically formulated to enhance and complement the active ingredients for specific patient use.
- Intensively studied to validate the compatibility, penetration and potency in numerous APIs.
- Ready-made with the wetting agents already incorporated into the base.
- Most formulations will not require any additional wetting or milling; greatly reducing the compounding preparation time.

■ Certified Quality

- FDA Registered and Inspected Manufacturer
- Licensed by the DEA
- cGMP Compliant
- Quality and Analytical Lab
- Stability and Beyond-Use-Date Testing

■ Exceptional Service

We stand on a foundation of providing specialized resources and exceptional customer service. We are proud to offer our compounding pharmacists a free Compounding Resource Center staffed by a registered pharmacist and certified pharmacy technicians to provide formulation and technical assistance.
