A CSS Health Company

Company Background & History

Medicine-On-Time is a software and adherence packaging company that empowers pharmacies with products, services, and solutions to improve patient care and drive growth and business opportunities. We combine software technology, an expanding line of adherence packaging solutions, and personalized support to help pharmacies realize bigger opportunities through better patient care.

Product Overview

When it comes to organizing specialized services including adherence packaging, the appointment-based model, and long-term care business — spreadsheets and wall calendars are a thing of the past. motNext software is built for the next generation of your pharmacy. With real-time pharmacy system integrations, tools to organize patient appointments, endless features to customize long-term care services, and more. You can increase efficiency and get more done in less time. Boost staff morale, expand business opportunities, and improve patient care with motNext.

NEW Appointment-Based Model Workflow

Medicine-On-Time is excited to introduce a new software feature that streamlines and enhances the appointment-based model in your pharmacy. This tool allows your pharmacy to incorporate patient engagement and coordination of care seamlessly into your daily workflow. From scheduling appointments and documenting patient consultations to sharing vital information with all members of the patient's care team, motNext has you covered.

Long-Term Care Software Features

Pursuing long-term care business in your community offers many benefits for the future success of your pharmacy. Whether you have already established LTC business or you are just getting started, having a solution to organize and streamline daily tasks is crucial if you want to achieve sustainable growth. motNext offers everything your pharmacy staff needs to stay on track with daily tasks, customize packaging solutions and services to meet the needs of any patient or facility, and simplify even the most complex challenges that come with servicing

LTC business. Real-time integrations with pharmacy operating systems, automation, and EMAR systems makes motNext the go-to software for any pharmacy looking to start or expand their LTC business.

Expanded Adherence Packaging Solutions

Adherence packaging isn't one-size-fits-all. Offering versatile and customizable solutions that meet the needs of any patient population opens the door for new business and more opportunities to maximize patient care. Medicine-On-Time offers an expanding line of multi-dose and single-dose adherence packaging solutions to support retail/community patients, long-term care, clinical services, skilled nursing, and more. motNext software allows you to organize all package types and all patient types in one place.

Personalized Business-Development Support

Operating a successful pharmacy business requires the tools and resources you need to educate and market to your community, ensure maximum profitability, and improve efficiencies at every turn. Medicine-On-Time offers the following personalized services to help you do just that.

■ **Marketing Support:** Dedicated and results-driven marketing professionals work directly with your pharmacy staff to elevate your marketing program. We provide the tools, resources, and coaching you need to market your solutions and help you reach the target markets you value most.

■ **DIR Fee Mitigation Services:** With a growing number of value-based contracts factoring medication adherence rates into overall reimbursement, it is critical that pharmacies have a strategy in place to mitigate DIR fees and maximize reimbursement. Medicine-On-Time's team of experts help your pharmacy identify outlier patients and engage them in a program that improves outcomes for the patients and increases profitability for your pharmacy.

■ **Live Customer Support:** Our team of IT professionals and nationally certified pharmacy technicians answer phones live and work with your business to diagnose and resolve your issues with little to no downtime. They have extensive experience with medication adherence and workflow management. Your staff will receive training and support needed to implement and maintain a successful program driven by motNext.
