Company Background

Fagron continuously introduces innovative products based on research done in our own R&D center. We work together with pharmacists, universities, physicians, and other healthcare providers to deliver optimized products and solutions. We continuously perform studies on our products, dedicated to providing you with innovative compounding solutions.

Fagron's strategy is focused on the optimization and innovation of pharmaceutical compounding. As an R&D scientific pharmaceutical compounding company, Fagron wants to widen the scope of the prescriber to provide tailor-made pharmaceutical care. Through its activities, Fagron supports the unique selling point of the pharmacist and improves the patient's quality of life.

Based in St. Paul, MN, Fagron, Inc. is part of the Fagron Group, the global market leader in pharmaceutical compounding, headquartered in the Netherlands. With over 2,000 employees in 30 countries worldwide, the Fagron Group provides over 200,000 pharmacists with superior compounding products every day.

Product Overview

Fagron Advanced Derma is a total solution for advanced, individualized dermatological therapy and care. Inspired by 20 years of experience in pharmaceutical compounding for dermatology and with expert knowledge of the specialty, Fagron has created a new global standard for compounded skin care. Fagron Advanced Derma includes a range of skin-friendly vehicles for different skin types. It offers unique benefits based on the latest, international scientific knowledge within the area of dermatology.

Fagron Advanced Derma Values

- **Individualized Treatment:** Compounding solutions based on skin type.
- **Pharmaceutical Quality:** All vehicles are GMP produced with pharmaceutically tested ingredients.
- **Patient Comfort:** The gentleness, skin feel, and visual appeal of each vehicle helps to improve the patient's quality of life and compliance.
- **Compatibility:** Scientifically-proven pharmaceutical stability.

- **Time Efficient:** Ready-to-use Fagron Advanced Derma vehicles save time and improve efficiency.
- **Accessibility:** Worldwide accessibility to Fagron Advanced Derma solutions without membership commitments.
- **Continuous Research and Improvement:** Fagron Advanced Derma is research based and driven.
- **Collaboration Between Prescribers and Pharmacists:** Combining the strengths of healthcare professionals to develop high-quality solutions.

Advanced Vehicles

Skin-friendly vehicles for different skin types, compatible with a broad range of Active Pharmaceutical Ingredients (APIs) and Dermocosmeceutical Ingredients (DCIs).

Fagron Advanced Derma offers a range of topical vehicles suitable for prescription compounding using APIs and advanced basic skin care using DCIs in a single product. This provides high patient comfort and maximizes compatibility in compounding as well as optimal results in basic skin care. Each vehicle is designed to suit a specific skin type profile.

■ Versatile™ Cream Base

- Hydrophilic Vanishing Cream Base
- Pleasant and Soft, Non-Greasy Skin Feel
