Company Background

■ Transforming the Business of Healthcare

As The Craneware Group since March 2022, Craneware and Sentry Data Systems, in their unified vision to transform the business of healthcare, collaborate with U.S. healthcare providers to plan, execute, and monitor operational and financial performance so they can continue to deliver quality care and services to their communities. Customers choose The Craneware Group's Trisus data and applications platform as their key to navigating the journey to financially sustainable value-based care. Trisus combines revenue integrity, cost management, 340B performance, and decision enablement into a single, SaaS-based platform, connecting actionable insights to deliver sustainable margin and operational efficiency — something no other single partner can provide.

Product Overview

■ 340B Pharmacy Management

The Craneware Group can help you maximize your 340B benefit with powerful solutions that deliver the precision, compliance, insight, and savings you need to run a successful 340B program and transform your pharmacy business.

- **340B Pharmacy Management & Compliance Solutions** simplify the complexities of pharmacy procurement, utilization, and compliance, while providing advanced NDC mapping functionality with flexible configuration options offering a complete audit trail and visibility into more efficient pharmacy operations. The Sentinel module uses proven methodologies and a robust feature set to take control of hospital pharmacy mixed-use costs, contracts and compliance.
- **340B Contract Pharmacy Management Solutions** simplify an array of complex compliance challenges. Sentrex helps you manage your 340B contract pharmacy relationships and expand medication access to more patients. Sentrex330 helps community health centers expand 340B benefits to as many eligible patients as possible and remain compliant while freeing up resources for other important matters.

Trisus Medication Analytic Solutions

Pharmacy leaders can optimize pharmacy performance and profitability using data analytics from the Trisus Medication Analytic Solutions portfolio that provides value cycle insights to deliver revenue integrity and 340B compliance, visibility into at-risk revenue, and opportunities for revenue optimization. The Craneware Group is committed to delivering applications that help pharmacy leaders navigate and prioritize data as needed, with a focus on enhancing financial and operational outcomes.

- **Trisus Medication Claim** streamlines the claims adjudication process, assisting with complex payor requirements and providing you with insight into all pharmacy charges. This solution integrates with any EMR or split-billing software. It provides you with a real-time dashboard to monitor claims and identify missed revenue, making the compliance of the claim application an important addition for CE's where modifiers and Actual Acquisition Costs are required.
- **Trisus Medication Compare** helps pharmacy leaders effectively transition to value-based care by comparing medications, processes, and costs to achieve the best possible outcomes. This application empowers clinical staff and P&T committees to yield data-driven improvements in quality metrics such as average length of stay and 30-day readmissions.
- **Trisus Medication Financial Management** assesses purchase, billing, and remittance data sets to provide visibility into margins, at the medication level, giving pharmacy leaders the insights needed to make informed business decisions on a multitude of pharmacy-related areas.
- **Trisus Medication Formulary** analyzes the formulary and improves charge capture, ensures coding compliance, and verifies cost accuracy to drive optimal pharmacy financial performance.

Testimonial

"The product's web interface is user friendly ... the reporting functionality is significant. We can really drill down into just about anything that we can think of within the product."
