Company Background

Leiters, founded in 1926, is an FDA-registered 503B outsourcing provider of high-quality compounded sterile preparations and pharmacy services. Leiters has a long history of evolving and innovating to meet the latest regulatory requirements and market needs.

All sterile preparations are produced under Section 503B of the FD&C Act (503B Guidance), follow Current Good Manufacturing Practices (cGMP) and USP <797>. The Leiters facility consistently upholds all standards based on the audits conducted by the FDA, states of California and Florida Boards of Pharmacy, multiple health systems, group purchasing organizations, and other independent accreditation organizations.

The Leiters team of experts in sterile pharmaceutical manufacturing, repackaging, and compounding provide a sophisticated understanding of what it takes to elevate the quality and consistency of supply in pharmaceutical outsourcing. Leiters combines a highly experienced team, with robust processes, in a new state-of-the-art outsourcing facility to ensure delivery of the highest quality products and services.
