## Company Background

For more than 45 years, NuAire has been committed to bringing you the highest-quality, most dependable pharmacy products on the market. We are universally recognized as one of the world's leading providers of reliable equipment for the compounding pharmacy. You can depend on our products to feature brilliant but practical design, and we pay keen attention to every step of the production process, from fabrication to assembly to thorough testing. As a NuAire customer, you can also rely on us for outstanding value and dependable service – the cornerstone of our reputation as the leading provider of pharmacy products internationally.

At NuAire, we create our high-quality products with your success in mind. This means that if you purchase a piece of equipment from us, we want you to be completely happy while using it. NuAire will work hand-in-hand with you in order to ensure that your experience using our product meets your standards, and if you encounter any issues or difficulties along the way, we'll help you work through them until you are 100% satisfied. Our philosophy is that we succeed only when you succeed – we are committed to working hard to ensure you achieve your goals.

- Compounding Aseptic Containment Isolators (CACI)

## Features & Options

*The Safer Choice for Your Pharmacy.* NuAire designs products specifically for the pharmacy environment. Smooth interior options make a great addition to any biosafety cabinet (BSC) allowing for enhanced cleanability. Add an Ergo-Tron arm to our airflow products to house a computer monitor with keyboard and mouse for your medication workflow or add a back wall cutout to a BSC to view documentation while compounding. Customize your product to enclose a TPN machine for a sterile environment. Our products are designed to lower your total cost of ownership and minimize downtime so you can concentrate on your work. Our products are second to none when it comes to quality, longevity, and service.

## Testimonials

**Product:** NU-430 Class II, Type B2 Biosafety Cabinet

**Source:** [www.selectscience.net](http://www.selectscience.net)

*"Reliable hood for preparation of chemotherapy. We have never had a problem with performance. Does an excellent job of keeping the chemotherapy contained."*

— Helena White, Cooperhealth System

**Product:** NU-PR797 Compounding Aseptic Isolator

**Source:** [www.selectscience.net](http://www.selectscience.net)

*"One of the friendliest and most knowledgeable companies I've dealt with in my pharmacy practice. Very helpful in my efforts to provide patients with safe, quality products for their care."*

— Gerald (Jerry) Carlson, IU Health Blackford Hospital Pharmacy
