Company Background

Acute Care Pharmaceuticals was founded in 1998 and was acquired by Tranzonic® in 2019. Acute Care, with its PharmaChoice™ and Protect 800™ brands, is a leading supplier of compliant, disposable medical products used in compounding pharmacies and other critical environments. All products are compliant with strict regulatory guidelines as required by USP <797> and USP <800>. Our products undergo testing and audits to ensure compliance. This unique dedication to compliance, coupled with its decades-long commitment to partner with hospital pharmacies, makes Acute Care a market leader. The company's various sterile disposable products are mandated for use in cleanroom environments. As such, Acute Care enjoys strong market penetration at hospital compounding pharmacies, standalone pharmacies, infusion, and cancer centers. Popular products include wipers, sterile alcohol, gloves, mop covers, and CAT kits. As part of Tranzonic® companies, Acute Care Pharmaceuticals, and the PharmaChoice™ brand are available to a range of customers with or without their GPO contract.

Product Overview

Acute Care manufactures and distributes products for healthcare affiliated critical environments. As per USP <797> and <800>, we produce products to meet or exceed the required guidelines. We offer a full suite of cleanroom disposables for your pharmacy practice. Many of our products can be found with free and next day shipping from AmerisourceBergen, Cardinal Health, McKesson, and Medline. In cooperation with our friendly account managers, we can assist you in sourcing the products you need to be a successful USP <797> and <800> compliant pharmacy.
