## Company Background

Eagle was established in 2003 to meet the regulatory needs and requirements of the pharmaceutical industry. During that time, Eagle grew and morphed into a full-fledged analytical chemistry and microbiological testing laboratory and consulting firm. In the coming decade, Eagle will continue building greater capabilities so that we can meet new market demands.

## Product Overview

Eagle is committed to providing your organization with the tools and knowledge to operate and maintain compliance within a highly regulated environment. Our science and pharmaceutical experts, state-of-the-art equipment, dynamic systems, and advanced procedures allow us to offer superior customized services.

Our desire, dedication, and discipline to ensure that patient safety and product quality are at the forefront of everything we do and our holistic approach to resolving your needs make Eagle a truly unique organization.

## Product Specifications

### 1. Testing

- Microbiology
