## Company Background

Founded in 1948, Follett Corporation is a leading manufacturer of innovative equipment for the healthcare market, including medical-grade refrigerators and freezers, ice and water dispensing equipment, ice machines, and ice storage and transport equipment. Our continuing goal to reach 100% customer satisfaction has resulted in equipment that provides outstanding innovation and design excellence to meet the specific needs of each facility. Our entire company is dedicated to providing the most customer-oriented service in the industry.

## Our Purpose

To provide innovative solutions that promote health, safety, and well-being.

## Product Overview

Follett medical-grade refrigerators and freezers maintain correct and consistent temperatures for your valuable medication, vaccines, and other critical products.

### ■ Upright Refrigerators and Freezers

Follett upright refrigerators and freezers feature a powerful top-mounted refrigeration module and innovative back plenum air distribution system for quick temperature pull down and superior temperature consistency to protect your valuable products.

- Custom-designed, modular refrigeration system with microprocessor controller provides a  $\pm 1^{\circ}\text{C}$  temperature consistency throughout the storage cabinet.
- Industry-exclusive plenum air distribution delivers cold air at six different levels.

Full stainless steel cabinet and high quality components designed with the user in mind.

- Stainless steel interior and exterior provide outstanding resistance to rust and corrosion.
- Dished stainless floor contains spills for easy clean-up.
- Heavy-duty dual casters roll easily and lock securely.
- 2.75" of CFC-free foam insulation throughout.

Heavy-duty doors provide ease of use and important energy savings.

- Full view locking glass doors with ADA-compliant full length handle standard on refrigerators.
- Energy-efficient, dual-pane glass with low-E coating reduces energy loss by 30-50%.
- Solid stainless steel doors on upright freezers feature 2.6" thick insulation.
- Self-closing door locks open at 90 degrees to allow easy product loading.

Innovative single module design provides outstanding serviceability.

- Top-mounted modular design allows the entire refrigeration system to be removed as one unit without cutting refrigerant lines. If needed, a spare system can slide into place, virtually eliminating downtime.

Choice of superior storage options.

- Industry-exclusive "floating" basket system on pharmacy models.
  - Six full extension, epoxy-coated "floating" baskets move with a gentle push or pull.
  - Shielded stainless steel bearings and stainless steel S-track design eliminate binding and uneven wear found with loose bearing systems.
  - Baskets and slide assemblies lift out without tools for full cleaning access.
- Four heavy-duty epoxy-coated shelves, adjustable in  $\frac{1}{2}$ " (1 cm) increments are standard on laboratory models.

### ■ Countertop Refrigerators and Freezers

High-performance countertop refrigerators and freezers offer superior temperature performance in space-saving configurations.

- 1 and 2 cu ft models fit on standard 24" deep counters.
- Forced-air cooling provides cabinet-wide temperature consistency and quick recovery after door openings.
- External digital temperature display in user-selectable F or C with integral high/low alarming and display sleep mode.
- Keyless entry via keypad and electronic lock option.

### ■ Undercounter Refrigerators and Freezers

Powerful undercounter refrigerators and freezers are designed for use below standard and lower ADA-compatible counters.

- Heavy-duty forced air cooling with auto defrost.
- External digital temperature display in user-selectable F or C with integral high/low alarming and display sleep mode.
- Keyless entry via keypad and electronic lock option.
