Company Background

Since Uniweb panels and products made their debut in 1970, they have supported the retail sector's need for more space and versatility in displaying merchandise. Uniweb has grown increasingly in the retail fixture market and developed and became leaders in the pharmacy fixture sector. Whether it is new construction, relocation or a renovation, Uniweb offers a complete line of fixture solutions and dedicated designers to guide you through the process! Uniweb's progressive culture allows them to create and build long-lasting, cost-effective and flexible displays - delivering more than just shelving.

Product Overview

Uniweb recognizes how crucial your retail or pharmacy space appearance is to you and to your customers. Uniweb works alongside your personnel and architects to craft the pharmacy exterior and/or interior to create a welcoming ambiance for the customers. The components will meet your company's specific aesthetic requirements, including surface options, materials, custom colors, and finishes coordinating with your surrounding store interiors.

Features & Options

An infinite number of design possibilities are available; custom metal finishes, trim strips, décor panels, laminates, wood and wood veneers, dry wall facings, decorative metals, glass, tile, awnings, special lighting, signage, and many others. Add these custom design features to Uniweb's interchangeable components and accessories, and you receive ENDLESS OPTIONS to complete or restyle your project.

Product Specifications

Uniweb is American Made and an ISO 9001 certified company, committed to providing the highest quality and service to exceed all requirements. The Uniweb panels, made of reinforced cold rolled steel, are finished with a powder coated finish, creating unrivaled durability and strength. Modular shelving, cabinets, and accessories are easily interchangeable and highly functional.

Additional Product Modules

Uniweb supports a progressive culture in their desire to visualize and build adaptable, modular, and portable display fixtures that are economical and resilient. With that pledge, Uniweb eagerly added millwork capabilities to their company profile! This remarkable news means that users of millwork will get their products from one location saving time, consolidating communications, and most importantly, saving MONEY!

Moreover, Uniweb's most resourceful manufacturing team members are two high-precision laser-cutting systems! The state-of-the-industry lasers significantly influenced Uniweb's ability to respond to your display needs by shortening manufacturing times while maintaining extreme economic efficiencies and producing premier quality products.

Additional Product Lines

Hurting for some extra space in a tight area? Need to secure merchandise or files? Uniweb's innovation has led to Uniweb in Motion. These products produce space saving, time-efficient way to store product. For instance, the Lok 'n Roll Cabinet®, provides a secure, locking cabinet with a Uniweb shape exterior, and a sliding bay pull-out housed within. Merchandise inside and out! In the pharmacy, this cabinet can be used for C2 narcotics lock up, HIPAA regulated patient records and CAL file storage, overstock, will call, etc.

■ Strength and Beauty!

Uniweb's Lok 'n See® Cabinet utilizes a Uniweb shape interior and a sliding glass casing exterior, allowing pharmacy staff to merchandise product for customers view, while keeping the products secure within the unit. In the pharmacy, use this cabinet for high-end OTC items such as cessation products, blood pressure and diabetes testing equipment, etc.

Other motion systems, such as the Locking Will Call Cabinets and Sliding Wall units also increase storage space without increasing the overall footprint.

Uses for these space saving fixtures, and many others that Uniweb offers, are only limited to your imagination!

Markets Served

Pharmacy, hospital, retail, grocery, industrial and convenience.
