Company Background

In 1997, the initial creators at Integra, who had backgrounds in closed-door pharmacy and acute and long-term care solutions, drew on their collective experiences to develop a product that eliminated the need for paper records in the pharmacy. Then, our industry-leading company expanded by developing an entire suite of solutions to meet and advance the operational and financial goals of our clients.

Product Overview

The Integra Suite is an industry-tested set of institutional pharmacy solutions. Our suite is designed to give you a comprehensive, flexible, compliant, efficient, and intelligent toolbox to meet your specific needs. Match our innovative, interface-friendly suite with our top-notch customer service and you get functional, intuitive software that fits like a glove.

Features & Options

■ What are the components of the Integra Suite?

We lead the industry with a proven pharmacy management system – PrimeCare® – that is the most comprehensive and interface-friendly institutional software in America. PrimeCare enables you to process orders quickly, efficiently, and safely, streamlining your daily processes. Experience our Pharmacy at a Glance dashboard, versatile dispensing options, and complete financial data management.

Communicate safely and simply with Cloud Fax, Secure Messaging, and WebConnect® (interactive facility portal). WebConnect provides access to pharmacy information at your facilities from the nurses' station or at the patient's bedside using any tablet with internet access. We connect you to your patients and vendor partners securely, so you can exchange sensitive information using email, fax, and internet tools that work best for your pharmacy.

DocuTrack® is our industry-standard flexible content management software. Receive, manage, organize, route, retrieve, and track phone, fax, and email documents. Focus your staff's attention on patient care and processing orders instead of pushing paper. Plus, simplify audits and experience intuitive search functionality.

Take advantage of compliant pharmacy logistics with DeliveryTrack®. Track your prescriptions from input to facility delivery, keeping the chain of custody secure. Now you can take the panic, overtime hours, and financial strain out of the audit process, while maximizing route options and keeping your facility patients informed in real time.

Logix® provides efficient automated solutions that eliminate repetitive manual processes across our software suite, freeing pharmacy staff for more productive output and faster service. Reduce errors and experience consistent, error-free facility communication.

For intelligent analytics, Mevesi® ensures you know your data. Access, filter, and analyze data to improve your customers' experiences, recognize bottlenecks before they occur, monitor revenue, and predict and stay in front of future needs. Mevesi converts your existing pharmacy management system financials into actionable information you can use to guide business decisions.

Integra is synonymous with world-class support. Our team is always just a phone call away!

Testimonials

“We operate a large LTC pharmacy, servicing assisted living, skilled nursing, behavioral health, and residential care settings. We use the entire suite of Integra products (PrimeCare, DocuTrack, DeliveryTrack, Direct Print, eRx Module, Cloud Fax, Secure Messaging, and Logix). This allows us to optimally streamline our operations, easily retrieve information, minimize errors, and create economies of scale. We have worked with Integra for over 10 years and have never been disappointed with their responsiveness, flexibility, and customer service.”

— John Saliba, RPh, President, Saliba's Extended Care Pharmacy, A Guardian Pharmacy

“Using Integra's Suite ensures a seamless flow of pharmacy content and delivery logistics through PrimeCare, DocuTrack, and DeliveryTrack, and provides valuable business analytics with Mevesi. Integra products give us reliable, comprehensive visibility across our entire company.”

— Mark McKee, RPh, Director of Pharmacy, Korman Healthcare
