### Company Background

In 1971 Max D. Peters Founded NuAire on the principle: "The best in industry service, expert knowledge and consistently providing quality laboratory equipment." NuAire builds integrity and reliability into every product utilizing True Laminar Airflow, the HEPEX™ Zero Leak Airflow System, State-of-the-Art Electronic Systems and Ergonomic Design. That is why for over 40 years NuAire has been recognized as the leader in providing laboratory professionals with reliable products with the best performance and best protection for the most demanding environments.

### Product Overview

NuAire's PharmaGard Isolators are available in 4 foot and 6 foot models, providing personnel, product and environmental protection, creating an ISO Class 5 sterile environment, meeting the requirements of USP Std. 797 for the compounding of sterile products. NU-PR797 Positive Compounding Aseptic Isolator, NU-NR797 Negative Pressure Re-circulating Compounding Aseptic Containment Isolator and NU-NTE797 Negative Pressure Total Exhaust compounding Aseptic Containment Isolator. PharmaGard CAI and CACI Isolators are CETA CAG-002-2006, ISO Class 5, UL, UL-C, CE, RoHS and USP 797 Compliant. NuAire also offers energy efficient Biological Safety Cabinets and Laminar Flow Clean Benches for use in ISO Class 7 Clean Rooms. Under the work surface sharps and waste system saves pharmacy space. Containers are held in place by guides to create an air tight seal. Releasing the locking mechanism frees containers moving them down and closer to the user for easy replacement.

The counter balance system is hidden within the inter-chamber wall away from sterile product. The window is easily moved up and down with the use of one finger. Located in the transfer compartment, the sliding work tray provides a seamless transition when entering compounding materials into the work zone.

The HEPEX™ plenum inflates to provide quiet uniform air without transferring vibration. Positive pressure chambers and ducts are surrounded by negative pressure eliminating potential leaks.

HEPEX fabrics are durable, impregnable and flameproof, with antibacterial properties. Resistant to chemicals, oils and greases, also provides a barrier against water, gases, fluid and dust.

An ultra-high efficiency motor saves on your energy bills while increasing filter life lowering your total cost of ownership. With a three (3) year warranty on parts and labor for the United States and Canada; four (4) years for international parts only.

### Standard Features

- Supply HEPA Filter 99.99% @ 0.3 Microns
- Solid State Motor Voltage Regulators
- Hinged Slanted Window
- 3/8" (10 mm) Thick Scratch Resistant Polycarbonate Window
- Flexible Two-Piece Nitrile Sleeve and Glove
- 3 IV Bar Locations
- IV Bar with 6 Hooks
- Hospital Grade Duplex

### Optional Features

- Bench Mount Support
- Telescoping Basestand
- Additional IV Bar with 6 Hooks
- Auto Lift Basestand
- Pull Out Stainless Steel Tray
- Cord Pass Through
- Right Side Transfer Compartment
- Storage Trays
- Dual Side Transfer Compartments (6 ft. Model Only)
- PharmaGard Digital Monitor
- Three or Four Glove Ports (6 ft. Model Only)
- Seismic Brackets
- Additional Hospital Grade Duplex

### Key Customers

NuAire's extensive client list includes the National Institutes of Health, Centers for Disease Control, Mayo Clinic, Procter & Gamble and several leading pharmaceutical manufacturers including Eli Lilly, SmithKline Beecham, Pfizer, Merck and Wyeth-Ayerst.

### Additional Information

In every NuAire product, Biological Safety Cabinets, Animal Handling Products, Incubators, Freezers, Polypropylene Fume Hoods, Laminar Airflow Products, or Centrifuges you will find brilliant but practical design, keen attention to detail in every phase of the fabrication and assembly process, thoroughly tested, outstanding value and dependable service. These are the foundation for NuAire's reputation, and practical reasons why NuAire is universally recognized as the finest. NuAire is an ISO 9001:2008 and ISO 13485:2003 certified company.

NuAire® provides the best in the industry sales and service support, through our in house Sales & Service Departments, application engineering, submittal documentation and drawings, as well as a network of manufacturers' representatives, distributors and dealers.
