## Company Background & History

Long Term Care at Home Pharmacy (LTC@H) network was conceived to fill a significant void in the market, offering education, support, and guidance tailored specifically to the long-term care at home sector.

Through the seamless integration of The Centennial Group's understanding of the long-term care at home pharmacy market and the multidisciplinary pharmacy experience of the PharmaComplete Team, a powerful synergy was formed that empowers LTC@H|Pharmacy Network to advance the long-term care at home sector, while equipping members with the tools they need to thrive.

We are deeply committed to driving innovation, fostering collaboration, and creating impactful change within the pharmacy industry. With our unwavering dedication and 150+ years of combined expertise, we are poised to lead the way in enhancing patient care, expanding opportunities, and shaping the future of long-term care at home.

## Product Overview

Embarking on long-term care at home can feel daunting, which is why we've designed accessible resources to simplify managing your LTC@Home pharmacy. Our comprehensive portal facilitates everything from initial setup with combo-shop and acquiring NPIs to compliance tools, identification guides, CE education, and marketing support, ensuring you're equipped to deliver top-tier LTC@Home care.

Recognizing the importance of documentation and collaboration in long-term care at home, we offer educational resources, identification guides, attestation forms, and other essential tools to support your pharmacy's compliance with payer and regulatory standards.

Remaining abreast of developments in the pharmacy industry is paramount, particularly in long-term care at home. Our members receive regular updates, and membership grants you access to weekly lunch-and-learns, ongoing educational materials, and exclusive partnerships aimed at bolstering your pharmacy's revenue and capabilities.

## Features & Options

- **Comprehensive Portal Access:** Gain entry to a user-friendly portal offering a wide array of resources tailored to managing LTC@Home pharmacies effectively.
- **Initial Setup Assistance:** Step-by-step guidance for setting up your pharmacy, including assistance with combo-shop initiation and obtaining necessary National Provider Identifiers (NPIs).
- **Compliance Tools:** Access to tools and resources designed to ensure compliance with payer and regulatory guidelines, simplifying the process of meeting industry standards.
- **Identification Guides:** Detailed guides to aid in the identification of various medications, facilitating accurate dispensing and patient care.
- **Continuing Education (CE):** Engage in CE education opportunities specifically geared towards LTC@Home pharmacists, ensuring ongoing professional development and competency.
- **Marketing Support:** Tools and resources to help promote your LTC@Home pharmacy services effectively within the community and among potential clients.
- **Documentation Assistance:** Templates and guidance for essential documentation requirements, streamlining the process of maintaining accurate records.
- **Collaborative Tools:** Resources to facilitate collaboration with healthcare professionals involved in the long-term care of patients at home.
- **Regular Updates:** Stay informed about industry developments and best practices through regular updates and access to the latest information relevant to LTC@Home pharmacy services.
- **Exclusive Partnerships:** Benefit from exclusive partnerships aimed at providing additional support and resources to enhance the capabilities of your pharmacy network.
- **Weekly Lunch-and-Learns:** Participate in weekly educational sessions to stay current with industry trends, best practices, and innovations in LTC@Home pharmacy care.
- **Networking Opportunities:** Connect with other professionals in the LTC@Home Pharmacy network to share insights, experiences, and strategies for success.
- **24/7 Access:** Enjoy round-the-clock access to resources and support, ensuring that assistance is available whenever it's needed.
