Company Background

Founded by leaders and experts within the pharmaceutical, medical, and natural products industries, Lassen Labs, a subsidiary of InBOLD Inc., is a brand that independent pharmacies, healthcare providers, and consumers trust. Not sacrificing quality over speed to market, Lassen Labs went through 18 months of R&D, multiple product iterations, and user trials to produce best-in-class CBD products backed by patent-pending technology.

Product Overview

Lassen Labs produces a therapeutic grade professional line formulated for healthcare professionals and pharmacies. Lassen's Nano Liposomal CBD formulas have proven to be highly effective in supporting pain management, inflammation, and general well-being.

Lassen's scientific advancements produce quality CBD solutions that:

- Provide rapid absorption and optimize bioavailability.
- Deliver accurate and therapeutic doses to targeted areas.
- Contain zero THC.

Features & Options

■ Lassen Labs Technology

Powered by science, Lassen's patent-pending technology delivers increased bioavailability that is up to ten times more effective. Therapeutic formulas provide deep penetrating, rapid absorption for fast, and long-lasting results.

■ Quality and Standards

Lassen Labs is completely transparent, establishing protocols for their company that far exceed CBD industry standards. All products are produced in cGMP compliant, FDA-registered facilities, and are third-party tested five times along the supply chain, for cannabinoid content, terpenes, heavy metals, solvents, microbes, and mycotoxins. Results are available for every product at www.lassenlabs.com/labreports.

■ Retail Solutions

Lassen Labs medical industry packaging is easy to use, provides accurate dosing, and offers QR label codes that lead directly to lab reports. Informative pop-up display units provide education and create a positive customer experience that drives recurring revenue.

Testimonials

"I suffer from chronic lower back pain (it is a family curse), and knots in my neck for years (decades). I have tried every product. Multiple hemp oils and CBD creams; gels you name it. The Lassen cream it works. This stuff really works!!"

— Mike, Lassen Retail Customer

"The relief cream is amazing. I was skeptical at first of CBD products – but it works quite quickly on my sore, stressed out muscles, and it even helps me sleep better! I love the scent and texture as well. It is well worth the price and way healthier than taking ibuprofen."

— Shannon, Lassen Retail Customer

Markets Served
