Company Overview

QS/1 provides products, services, and support for independent retail, outpatient, long-term care pharmacies, and pharmacies with HME. QS/1 offers pharmacy management software with tools to help prevent medication errors, increase patient adherence, and provide Medicare Part B compliance documentation. Service and support are available via a toll-free call or WebChat. Training is available through self-paced learning programs and interactive training sessions. Learning opportunities are available through webinars and an annual Customer Conference. QS/1's regional offices also provide training and support. QS/1 is a division of the J M Smith Corporation.

Product Overview

NRx is the most comprehensive retail pharmacy management system available. Enhance overall productivity with built-in tools that simplify workflow, process claims, manage inventory, and more. NRx seamlessly integrates with other QS/1 products, including Point-of-Sale, SystemOne® for HME, Multi-Site Management (MSM™), IVR, and mobile and Web Refill Services to provide flexibility, productivity, and patient safety. QS/1's technology is based on 40 years of experience and support.

Features & Options

NRx provides pharmacies with the tools they need to be productive and profitable. *Five-Star Rating* tools such as tracking MPR% calculations and flagging CMS-monitored drugs like statins and ACE inhibitors. Prescription synchronization as well as refill and pickup reminders via text, email, or phone aid adherence. Integrated, scalable *Workflow* allows flexible management of multiple work queues, resulting in safe procedures, balanced workloads and smooth operations. Our *Pharmacy at a Glance* dashboard helps pinpoint and eliminate bottlenecks with clear displays of up-to-date information from all prescription processing queues. The only pharmacy management systems to include *Medicare Part B Compliance Documentation*, the system prepares and prints required documentation during prescription processing and electronically stores the documentation for easy retrieval.

Testimonials

"QS/1 systems are reliable and the service and support are always there. It's like one of my employees said after seeing QS/1 in action: 'Why would you do business with anyone else?'"

— Darden Heritage, RPh, Star Discount Pharmacy

"What I like most about QS/1 is the stability, reliability, and continuity of the products."

— Chad Corwell, MBA, The PharmaCare Network

"The great thing about QS/1 is the seamless integration of its products."

— Jeff Harrell, PharmD, Peninsula Pharmacies

Additional Product Modules

Web & Mobile Refill Services and IVR: Save time and limit disruptions in the pharmacy while providing convenience customers prefer. IVR, web and mobile refills top the list of productivity-enhancing pharmacy tools, allowing patients to call or log on any time to order authorized refills.

mobileRx®: Smartphone app that allows patients to quickly order refills, view their profiles and set reminders to take their medications. Available for iPhone® and Android™.

NRx Delivery®: This shipping solution organizes and manages multiple credit cards, delivery addresses, and multiple individuals in one account. It also tracks payroll balances and automatically charges accordingly for efficient payroll deduction.

Point-of-Sale: A store-wide retail management solution that seamlessly integrates with our pharmacy management systems. Its touchscreen controls speed checkouts while multiple features tighten inventory management, eliminate redundancies, and drive retail profits.

Additional Product Lines

Long-Term Care Pharmacies: *PrimeCare®* is flexible and can be customized to meet your unique needs. It's an excellent choice for pharmacies serving long-term care facilities. *WebConnect®* is an easy-to-use iPad® app that provides facility access to pharmacy information. It saves time and increases efficiency and productivity and can improve facility service by sharing information.

HME/DME: *SystemOne* is an affordable way to manage HME operations and ensure complete Medicare compliance. It integrates seamlessly with QS/1's Pharmacy Management and POS systems.

Multi-Site Management: *MSM* helps you manage multiple pharmacies from one location. Central management eliminates redundancies and streamlines updates to pricing, third-party plans, drugs, clinical updates, employee access, staffing, drug price updates, reward programs, and more by sharing information in real time.
