Company Background

Verity Solutions is an award-winning leader in software and services developed for administration of the federal 340B drug pricing program. Our mission is to make every aspect of 340B program management clear and easy to understand. We believe in optimizing program benefits through predictable automation and support so that every customer can maximize their savings. Verity Solutions is based in Kirkland, Washington, with remote employees stationed across the nation to best serve our widespread customer base.

Product Overview

Hundreds of integrated healthcare systems, acute-care hospitals, community health centers, federally qualified health centers, pharmacies, and other 340B-eligible covered entities throughout the United States rely on Verity 340B® software and services to successfully manage their 340B program. Our comprehensive solutions for *split billing, contract pharmacy, specialty contract pharmacy, compliance management, purchase analytics, and pharmacy network management (VHUB™)* all offer:

- **Agile Software Platform:** Built and deployed with security, performance, scalability, and agility as primary goals. HITRUST certified and HIPAA compliant.
- **Intuitive Application:** Designed with our users in mind, we maintain ongoing feedback and collaboration with our clients. This collaboration steers our continual software and services development.
- **Responsive Support:** Designated account managers provide focused support, training, audit readiness, and regular business reviews to maximize your 340B program success and help you maintain compliance.

What Sets Verity Solutions Apart?

With increasing 340B regulatory complexity and demand for audit preparedness, it is more important than ever to have the right solution for your 340B program management – and the right partner. Verity Solutions, and its powerful V340B® cloud-based software platform, is a partner your organization can rely on to ensure 340B compliance and optimized savings. Our depth of in-house technical and software development resources and our highly-skilled account management team are closely aligned to swiftly adapt as changes arise in the 340B program.

■ Highlights

- *Industry leading core functionality of our V340B® platform* with optional, patent-pending add-on modules to enhance all aspects of 340B operations in challenging and unique environments.
- *60- to 90-day implementation* time frame for both split billing and contract pharmacy solutions upon receipt of compliant dataset.
- *Access to your own unique 340B program test environment* – before and after implementation. Test environment runs continually in parallel to your live system.
- *Easy and exportable reporting functionality* including detailed data for manufacturer or HRSA audits.
- *Transition from one electronic medical record (EMR) to another without downtime* (contingent upon receipt of dispense file from the covered entity).
- *Multiple vendor support* with controlled substances ordering system (CSOS) – efficiently place orders with both EDI (electronic data interchange) and non-EDI vendors.
- *Two-week sprint release cycles ensure timely software updates* driven by customer feedback, regulatory changes, and user needs.
- *Flexible and 'winners only' contract pharmacy pricing models.* No true-ups.
- *Verity Care Card Program* – directly pass 340B savings to uninsured and underinsured patients.
- *Referral capture* opt-in functionality to compliantly add meaningful savings lift to your 340B program.
- *Responsive customer service* provided by our in-house staff and the ability to submit and track issues in our online customer portal.
- 79% of our customer support cases resolved within two hours. 95% resolved within 24 hours.
