## Company Background

From our first days in business, Drug Package and Shamrock Labels have been committed to helping you deliver best-in-class service to your customers and patients. Now, these two respected suppliers are uniting their industry expertise, quality product lines, and renowned customer service to provide the next generation of US-manufactured and distributed pharmacy supplies and healthcare label solutions. Drug Package proudly serves local, regional, and national pharmacies, long-term care, and healthcare facilities across the US. We're known for our high-quality, economical pharmacy supplies, quick delivery, and first-rate, responsive customer service. That's why our US-based design, manufacturing, and distribution facilities set the standard for thermal and laser labels, medication blister packs, and pharmacy bags — ready to ship to your door without delay. In addition, our friendly, knowledgeable staff can help you customize products or find the right items to work with your pharmacy software system.

Pillcards.com is the latest innovation from Drug Package, the trusted supplier of medication blister cards for over 50 years. The Pillcards.com website transforms Drug Package's pharmacy expertise into the next level of e-commerce solutions for daily medication management. Born out of the need for easy, compliant, convenient, and efficient ordering of medication blister packs, pillcards.com provides a one-stop shop for pharmacists, caregivers, and care receivers. Pillcards.com's products work with all automated dispensing systems, including SynMed®, to accurately dispense oral solids into 31-day, weekly, and monthly medication blister cards to accommodate your patients' needs.

Since 1969, Shamrock Labels has been the leading innovator in labeling for healthcare and research. Today, our high-quality labels are composed of the most advanced materials and adhesives, setting the standard for pharmacy usage across the globe. With production facilities in Chicago, St. Louis, and Los Angeles, Shamrock Labels manufactures and ships worldwide quickly and efficiently. Our full-service customer support teams are focused on exceeding your expectations with every question answered and every order placed. We don't just sell labels; we provide labeling solutions.

## Product Overview

■ **Thermal and Laser Prescription Labels:** Take advantage of the combined product lines of both Drug Package and Shamrock Labels to

shop the widest selection of thermal and laser prescription labels. Ensure consistent, crisp, clear quality, and unmatched efficiency for all pharmacy applications. Choose from stock or custom labels that are compatible with all pharmacy software systems.

■ **Custom Labels:** Another advantage of our combined product lines — we offer the largest selection of label materials from which to choose. That means the largest variety of sizes, colors, and materials to meet your needs, including cold-temperature, removable, repositionable, extra-aggressive permanent adhesives, and moisture-resistant and alcohol-resistant materials. We will also customize your ordering and delivery so that you have your labels in hand when you need them.

■ **Pharmacy Warning Labels:** Nothing is more important than patient safety. That's why we carry a broad supply of stock pharmacy warning labels in various styles, colors, and sizes, all available in English and Spanish. Don't see the specific warning message you need? We offer custom pharmacy warning labels as well. We'll work with you to design easy-to-read warning labels that communicate critical prescription information.

■ **Pillcards:** Pillcards.com is the e-commerce answer for pharmacists. Choose from a wide variety of single- or multiple-dose, cold or heat seal blister pill packs in a range of sizes and pill counts. Our multiple-dose blister packs streamline pharmacy filling time and are compatible with the top-selling pharmacy automation systems on the market today, including SynMed® Systems. In addition, gain exclusive marketing visibility by imprinting your pharmacy logo on any of our pillcards.

■ **Pharmacy Bags:** Browse our extensive selection of stock and themed pharmacy bags, including seasonal or holiday-designed bags, awareness bags, thank you bags, standard RX-style bags, and twisted handle bags. Build your pharmacy's brand awareness by custom imprinting bags with your pharmacy logo. Or, turn your pharmacy bags into a new revenue source by marketing their high visibility advertising space to area businesses.

■ **Thermal Printers and Scanners:** As a Zebra Registered Reseller, we offer printing and scanning solutions for your on-demand needs. Shop our selection of quick and efficient Zebra printers designed to fit in pharmacy workspaces, with a variety of easy-to-use options for healthcare applications. Zebra's premium medical scanners are purpose-built for pharmacy environments, providing unparalleled performance and workflow adaptability.

■ **Pharmacy Supplies:** With a comprehensive selection of pharmacy supplies, we stock those essential items that your pharmacy needs. Explore our inventory of prescription pads, thermal transfer ribbons, mortars and pestles, scales, hanging prescription bags, LTC medication carts, and cold or heat seal equipment and accessories. Don't see the pharmacy supply you need? Just ask us, and we'll find it.
