Company Background

40+ years of experience and still exploring! Since Uniweb panels and products made their debut in 1970, they have supported the retail sector's need for more space and versatility in displaying merchandise. After becoming a premier fixture supplier in the retail market, Uniweb became pioneers and leaders in the development of shelving in the pharmacy fixture sector. Uniweb, Inc. manufactures all-steel pharmacy systems. The RX System 2000, the Modular Pharmacy, and the Counter Wall are all designed to provide efficient work areas for pharmacists and their teams. Uniweb RX systems hold more products, which equates to 50% more product storage in the same footprint over conventional systems, and more profit to the bottom line!

Whether it is new construction, relocation or a renovation, Uniweb offers a complete line of fixture solutions and dedicated designers to guide you through the process! Uniweb's progressive culture allows them to create and build long-lasting, cost-effective, and flexible displays - delivering more than just shelving.

Let Uniweb inspire you! The Uniweb team, eager to assist you and your team with any challenges you may have, now or in the future. Not only can they realize your objectives, but yes, they will help you achieve your goals. Discover how Uniweb's customer-first philosophy, dedication to innovation and value provides their customers with unmatched products and support.

Product Overview

■ Strength & Beauty

Uniweb recognizes how vital your retail and pharmacy space appearances are to you and to your customers. Uniweb productivity enhancing products and reliable support services help clients work efficiently, while creating and beautifying space. Uniweb works alongside your personnel and architects to craft the pharmacy exterior and/or interior to create a welcoming ambiance for the customers. The components will meet your company's specific aesthetic requirements, including surface options, materials, custom colors, and finishes coordinating with your surrounding store interiors.

Features & Options

■ Infinite Potential

An infinite number of design possibilities are available; custom metal finishes, trim strips, décor panels, laminates, wood and wood veneers, dry wall facings, decorative metals, glass, tile, awnings, special lighting, signage, and many others. Add these custom design features to Uniweb's interchangeable components and accessories, and you receive endless options to complete or restyle your project.

Product Specifications

■ Unparalleled Quality

Uniweb is American Made and an ISO 9001 certified company, committed to providing the highest quality and service to exceed all requirements. The Uniweb panels, made of reinforced cold rolled steel, are finished with a resilient powder coated finish, creating unrivaled durability and strength. Modular shelving, cabinets, and accessories are easily interchangeable and highly functional.

Additional Product Modules

■ Practical Modular Spaces

Uniweb designs and manufactures complete modular rooms that provide you the liberty to design and equip your space needs for maximum utility at an affordable price. Whether your pharmacies, manager offices, cash rooms, and secure retail areas need more space or a change in operations layout, you're not locked into your original design. Room sizes and configurations are virtually unlimited!

Additional Product Lines

■ Amazing Flex Workstations & Counters

Simple and versatile! Uniweb's Flex Check-Out systems offer boundless configurations. As your needs change, simply rearrange or provide a single new component without having to reorder the entire counter run. The unit can be equipped with shelves, cabinets, countertops, electrical hookups, windows, locking doors—whatever fulfills your requirements. We build to size and color specifications, and can order plain metal or enhanced laminate exterior.
