Testimonials

"Last year we switched from another GPO to Innovatix. As a result, we receive deeper discounts on a wider portfolio of contracts, and we get outstanding customer service. In addition, the Innovatix Preferred Provider Network has really helped our pharmacy with Medicare Part D reimbursement. They keep us up-to-date on legislative and industry issues that are crucial to our business. Switching to Innovatix was clearly the right move – I would recommend Innovatix to any long-term care pharmacy."

Key Business Partners

Innovatix is 50% owned by Premier, one of the nation's largest acute care group purchasing organizations. Our relationship with Premier allows our members to access some of the same discount pricing that was typically only available to the nation's largest acute care institutions. In addition, we have negotiated exceptional pricing and advantageous purchasing terms directly with vendors and manufacturers in order to cater specifically to the markets we serve.
