Company Background

Established in 1992 as a specialty generic wholesaler, Anda started by providing a niche distribution service of prescription generic pharmaceuticals to meet the purchasing needs of retail independent pharmacies throughout the U.S. Over the years, we expanded our product line beyond generic pharmaceuticals to better service the distribution needs of our customers. Today, Anda is one of the leading pharmaceutical distributors in the U.S., providing distribution services to customers that span all trade classes within healthcare.

At Anda, we understand how the evolving pharmaceutical industry changes the needs of our customers. For 30 years, we have remained dedicated and focused on our commitment to being a trustworthy, reliable, and knowledgeable resource to our customers, helping to get medicine into the hands of those who need it.

Product Overview

Anda is a leading pharmaceutical distributor within the healthcare supply chain, providing nationwide service to all 50 states. We offer unique primary and secondary distribution solutions that can be tailored to align with your business strategies and meet the needs of your patients.

Product Access

Our product portfolio and programs have been developed to provide cost-effective sourcing solutions for traditional prescription fulfillment and to support revenue growth programs such as Pet Meds, Pharmacy Vaccine and Immunization Services, Diabetes Care, and Point-of-Care Testing.

We provide product access to over 14,000 items across all forms and therapeutic categories from nearly 400 manufacturers.

Products include:

- Brand, Generic, and Specialty Pharmaceuticals
- Flu and Disease Preventable Vaccines
- Point-of-Care Diagnostic Tests
- Medical Supplies and PPE
- OTCs and Vitamins
- Pet Meds

Our Service

Orders are processed and shipped six days a week, we provide next day delivery, low minimums, and operate under extended ordering hours so our customers can have the increased flexibility and enhanced access to the products they need.

Each of our customers has their own dedicated account manager to help support them as needed. Orders can be placed by phone, online, or via EDI transmission.

Markets Served

We provide service to providers throughout the healthcare supply chain. Our customers include independent retail pharmacies, national and regional chain pharmacies, long-term care pharmacies and facilities, outpatient clinics, hospitals and medical centers, physicians, pharmacy buying groups, and group purchasing organizations.

Ordering Information

We are here to provide product access and fast, reliable distribution services you can trust to help you get medicine into the hands of those who need it. Scan the QR code or call us at (800) 331-ANDA (2632) to learn more.
