Company Background

Since 2008, D2 Solutions has helped pharmacies across the industry reimagine their processes and reduce the operational burden, arming them with a groundbreaking combination of expert consulting and strategic SaaS solutions. From financial, licensing, regulatory, and accreditation pressures to managing the hassles of payer contracting and declining patient engagement, navigating every detail can be overwhelming. As a team of healthcare leaders and former pharmacists, D2 strives to leverage our over 1,000 years of combined industry experience towards changing the narrative and developing solutions that truly enhance operational efficiency, minimize exposure to regulatory risk, and drive patient access. Having collaborated with a variety of hospital and specialty pharmacy providers, ranging from independent establishments to wholesale distributors, supermarket chains, and hospital health systems, our hope is that our expertise can become your peace of mind.

Product Overview

- **ComplySuite® Technologies:** Automate compliance management, reduce the operational burden, and restore confidence in your compliance.
- **UltraTouch® Technologies:** Enhance the patient experience and increase speed-to-therapy.
- **Specialty Pharmacy Consulting:** Accreditation, licensing, 340B maximization, PBM and health plan mapping, prime vendor contracting, regulatory compliance, overcoming staffing challenges, etc.
- **Pharmaceutical Manufacturer Consulting:** Market access, contracting, pricing, distribution, compliance, therapy positioning, etc.

ComplySuite® — Restore the Confidence in Your Compliance

For over 12 years, D2 has collaborated with major accreditation bodies, regulatory agencies, and our internal pharmacist consultants to identify gaps and streamline processes for staying ahead of accreditations, monitoring licenses company-wide, and more efficiently managing regulatory alerts. ComplySuite® is comprised of three web-based platforms:

- **AccredComply:** A centralized database for accreditation and reaccreditation management.
 - Built-in global database of accreditation requirements.

- Automated, customizable, and auditor-ready reporting.
- Roles-based platform designed for cross-departmental communication.

- **RegComply:** Novel regulatory alert management dashboard that ensures only the right alerts, go to the right people, every time.
 - Customizable alert paths and intelligent triaging based on organizational structure.
 - Automated alert response documentation and audit-ready reporting.
 - Legislation tracking supported by real people.

- **LicenseComply:** A single database for organizing, monitoring, and tracking licenses so you never miss a renewal.

- License storage with searchable license libraries.
- Live status tracking dashboard.
- Roles-based platform with custom admin views.

UltraTouch® — Reimagine the Patient Experience

UltraTouch® consists of patient engagement, prior authorization, and therapy management solutions designed to enhance the patient experience by integrating with your existing systems, increasing speed-to-therapy, and simplifying communication with patients, payers, prescribers, and team members alike.

- **UltraTouch® Verify:** Revolutionary prior authorization management supported by real people.

- PAs, patient data, PA statuses, and all communication in one organized dashboard.
- Team efficiency reporting and payer behavior analysis.
- Agile integration with existing systems (EHR, APIs, Epic, FHIR, etc.) and existing PA processes.

- **UltraTouch® Engage:** Automated, bi-directional patient communication.

- Custom digital outreaches for onboarding and collection of missing information.
- Multi-language compatible without data loss.
- Proven 53% increase in speed-to-therapy.

- **UltraTouch® Patient Management:** Patient data optimized for accreditation.

- Provides forms and assessments aligned with current accreditation standards.
- Supports disease and drug-specific therapy programs.
- Hosts all patient data points in one place for simple outcome reporting.
