Company Background

TCGRx is an industry leader in automation and design services for all pharmacy markets. Backed by decades of experience, TCGRx utilizes the latest in technology to offer the most reliable pharmacy automation solutions on the market. Our staff designs and integrates automation and workflow solutions into every aspect of pharmacy dispensing.

Product Overview

■ **LocalRx™**

LocalRx provides industry-leading technology to expedite the will-call process and expand your patient base. This secure system allows patients to pick up prescriptions in less than 10 seconds.

Features & Options

- Avoid lines and limited hours.
- Online tracking.
- Automated patient notification system via email or text message.
- Patient retrieval via pick-up code or smart phone app.
- Touch screen-enabled interface.
- On-site convenient payment methods.
- Barcode, credit card, and RFID-enabled readers.
- Biometric identification.

Additional Product Lines

■ **ATP® 2**

The ATP 2 Automated Tablet Packager is the most versatile, industry-leading oral solid packager on the market. Engineered to provide improved performance, reliability, and flexibility, the ATP 2 is expandable for future growth or business needs from 64 to 480 medication canisters. Equipped with a dual tray system, you can now continuously run your ATP 2 without interruptions, making unit dose or multi-medication packaging practical for any pharmacy. The ATP 2 facilitates both unit dose in two sizes (short wide, or narrow) and also has the ability to produce multi-medication pouches for outpatient adherence programs. Hospitals can include barcodes for meds-to-bed programs, ensuring patient safety with checks against e-MARs. The ATP 2 integrates with a comprehensive suite of pharmacy solutions offered by TCGRx, including a fully automated image verification system, the InspectRx®.

■ **SmartCardRx™**

SmartCardRx works with a wide range of multi-med card formats to simplify medication management for patients with multiple prescriptions. Multi-med cards help patients improve adherence, leading to improved health outcomes. The patient card is printed with patient information and a full medication index. In addition, the patient blister card can be custom printed with pharmacy branding.

Markets Served

- Hospital – Inpatient
- Hospital – Outpatient
- Central Fill
- Specialty
- Independent Retail
