Company Background

■ Strong As Steel For 50 Years!

Founded in 1970, Uniweb's expertise is the design and manufacturing of quality fixtures that go beyond the retail pharmacy doors. Whether it is new construction, relocation, or a renovation, Uniweb offers a complete line of fixture solutions and dedicated designers to guide you through the process.

The basic premise of Uniweb's philosophy is that retailers can make better use of their existing space by re-imagining their approach to fixturing and employing more profitable high-density fixtures, such as Uniweb.

The other key aspect of Uniweb's value proposition is the company's domestic sourcing and operations, which allow for a turnkey approach. Made in America means that in a matter of weeks — as opposed to months — Uniweb designs, builds, ships, and installs fixtures that satisfy retailers' operational requirements and help merchants achieve sales goals.

The ultimate beauty of Uniweb's craftsmanship ... as your needs change, so can your space! Their factory-built custom units deliver long-lasting fixtures that can easily be reconfigured and updated, giving your space the resources to grow as your sales demands change.
