Company Background

Acute Care Pharmaceuticals has been servicing the healthcare industry for over 20 years, delivering exceptional products and service to healthcare providers nationwide. We offer a wide range of USP <797> and <800> compliant disposable products that are manufactured under the highest standards. With numerous GPO and IDN contracts, our goal is to make your buying experience simple and easy. Our Pharma-Choice™ brand of products are stocked at a variety of distributors including AmerisourceBergen, Cardinal, and McKesson where you can receive your special discounted GPO contract pricing.

Product Overview

Improve facility operations with Acute Care Pharmaceuticals' Pharma-Choice™ brand of products. The quality manufacturing of our Pharma-Choice™ brand of cleanroom disposables demonstrates our commitment to the continued success of USP <797> and the future success of USP <800>. All wipers are manufactured to meet International Organization for Standardization Class 5 and USP <161> endotoxin limits for medical devices of 0.06 EU/mL. Our sterile alcohol is manufactured with USP-grade water for injection and is available in a variety of sizes.

From the inception of USP <797>, we have been a trusted provider for the majority of hospitals nationwide in cleanroom disposables. Our constantly expanding USP <797> product line includes: sterile alcohol, non-shedding/non-linting wipers, disinfectants, gloves, media test kits, apparel, mopping systems, and more.

Now that USP <800> is getting closer to an official launch date, we have taken the same approach to creating a comprehensive line of products developed with you in mind, because your safety and the safety of your employees matters. Our USP <800> products include: chemo gowns, chemo gloves, chemo spill mats, goggles, respiratory masks, sterile apparel, transport bags, spill response kits, and a two-step chemo neutralizing kit.
