Company Background

MEDISCA proudly celebrates 30 years of delivering quality service to the pharmaceutical compounding industry and allied healthcare professionals worldwide. Together, MEDISCA, MEDISCA Network, and LP3 Network support prescribers, pharmacists, and pharmacy technicians engaged in personalized medicine by offering products and equipment, advanced formulation support, and educational trainings, respectively.

Product Overview

MEDISCA is very excited to welcome COPADERM to its growing family of proprietary brands. The dermatologist-recommended topical gel is the first of its kind to combine the natural healing benefits of Amazonian copaiba oil, the protective barrier of high-purity silicone gel, and carefully selected ingredients to improve the appearance of scars. Copaiba oil is a renewable natural ingredient with a rich history dating back centuries ago. When combined with premium, synergistically acting ingredients including sweet almond oil, Lipactive Inch Inchi®, and the clinically proven efficacy of silicone gel¹, they provide an optimal environment on the skin and promote the healing of old and new surgical scars, burns, cuts, keloid scars, stretch marks, acne scars, wounds, and tattoos. MEDISCA's luxuriously packaged COPADERM Professional Scar Care is ready to be sold without prescription at compounding and retail pharmacies across North America.

Features & Benefits

- Visible results within 28 days.²
- Helps soothe itching and discomfort associated with scars.
- Clinically shown to improve patient's quality of life.³

Testimonial

"In our clinical trial we saw great clinical efficacy with no adverse events and no sensitivities. Copaderm will help reduce the appearance of scars for many patients in years to come."

— Dr. Jill Waibel, Board Certified Dermatologist, Miami Dermatology and Laser Institute
