Company Background & History

■ Delivering Exemplary Provider® Recognition for Over 25 Years

Since 1994, The Compliance Team (TCT) has delivered innovative solutions to pharmacies across the nation. Our Exemplary Provider® programs elevate your pharmacy to help you meet the challenges of the evolving value-based care era.

■ We Change the Way You Think About Accreditation

TCT's standards were developed with the assumptions that:

- Every patient deserves exemplary care.
- Accreditation should not be difficult or costly to achieve.
- All program standards should address what matters most to the patient: Safety – Honesty – Caring®.

Providers immediately embrace our philosophy when they start working with us and see how our simplified, patient-centered, and provider-centric standards enhance their existing business models. Our Exemplary Provider programs improve operations, stream-line processes, and build more profitable businesses.

Integrated DME With Pharmacy Accreditation

Most pharmacies, whether chain or independent, maintain a part B DME PTAN, allowing them to bill Medicare DMEPOS. To do that, accreditation is mandated. TCT recognizes the efforts that providers take to prepare for accreditation. Maintaining our simplified approach, we combine the DMEPOS requirements into our Community Pharmacy program. By accrediting your pharmacy and the services you provide, TCT's accreditation sets your pharmacy apart from the competition and gives your referral sources peace of mind.
