Company Background & History

■ We have offered Exemplary Provider® recognition for nearly 30 years. Since 1994, The Compliance Team (TCT) has delivered innovative solutions to pharmacies across the nation. Our Exemplary Provider® programs elevate your pharmacy to help you meet the challenges of the evolving value-based care era.

Patient-Centered Pharmacy Home™ is a Value-Based Care Program Developed to Empower Pharmacists

Our proprietary Patient-Centered Pharmacy Home™ (PCPH) Accreditation program is a highly respected value-based care program designed specifically for pharmacists who are leaders in their communities. This program may help a pharmacy develop stronger relationships with referral sources and expand its fee-based services.

PCPH is based on our CMS-recognized Patient-Centered Medical Home Accreditation. The program focuses on advanced pharmacy practices and empowers pharmacy personnel to work at the top of their licenses and to play an active role on a patient's care team.

Integrated Community Pharmacy/DMEPOS Accreditation Yields Exceptional Value

Most pharmacies, chain or independent, are accredited to bill Medicare for DMEPOS services and supplies. As such, we combined the DMEPOS requirements into our Community Pharmacy program — at no additional charge to you. By accrediting your pharmacy and the services you provide, TCT's accreditation sets your pharmacy apart from the competition and gives your referral sources peace of mind.

Our Simplified Approach Conserves Time & Money

The TCT approach is unrivaled, and our team truly makes the difference. Our commitment to patient care is built into every program. In fact, The Compliance Team's standards were developed with these beliefs:

- Accreditation should not be difficult or costly to achieve.
- Every patient deserves exemplary care.
- All program standards should address what matters most to the patient, Safety — Honesty — Caring®.

Our expert advisors work closely with you to ensure you receive and utilize the education and preparation you need for accreditation or accreditation renewal. Our on-site evaluators are trained to look for

potential process improvements that can save you time and money. It is a personal level of service and care that is unmatched in the industry.

The Compliance Team Difference From Start to Finish

- A one-on-one advisor who walks you through the standards via a call series; and is available throughout your contract term.
- Policy and procedures templates save you time and money.
- Self-assessment checklists to help you attain and retain your accreditation status.
- Live and recorded webinars making the accreditation process flow more smoothly.
- Access to our patient satisfaction portal (included with each of our programs) allows you to benchmark your quality against other providers and provide useful data to potential referral sources.
- A three-year payment schedule makes budgeting for accreditation more workable.
- Exemplary Provider® designation makes you a leader in your community.

Providers immediately embrace our philosophy when they start working with us and see how our simplified, patient-centered, and provider-centric standards enhance their existing business models. Our Exemplary Provider programs improve operations, streamline processes, and build more profitable businesses.

Exemplary Provider® Suite of Pharmacy Services Designed to Strengthen Your Pharmacy's Performance & Consistency
