## Company Background

### ■ Uniweb is the Multi-Tool of the Fixturing Industry

Uniweb offers various retail, pharmacy, and millwork products for retailers looking to expand their departments without dramatically increasing space allocation. Uniweb RX systems hold more products in the same footprint over conventional systems, boosting profits!

Uniweb collaborates with designers and store personnel to craft visually appealing and practical pharmacies and consult spaces. They offer customizable surface options, materials, colors, and finishes coordinating with the surrounding store interiors.

## Product Overview

Uniweb offers diverse, versatile, and modular solutions utilizing every inch of space with flexible room configurations, RX storage bays, and accessories. Designed with fewer components and engineered with tight tolerances, Uniweb's American-made products exceed UL standards, deliver high-density storage, and will *never rip or tear!* Whether it's new construction or renovations, Uniweb offers a comprehensive line of fixture solutions:

- Complete Modular Rooms
- Clean-Line Wall Storage Panels and End Caps
- Consultation and Health Clinic Spaces
- Will Call, Check-Out, and Queuing Systems
- Workstations, Countertops, and Under-Counter Accessories
- Locking Cabinets and Gondolas
- OTC Systems and POP Displays
- And so Much More ...

The walls, counters, cabinets, shelving, and accessories provide infinite versatility while allowing you to design and equip your space for expandability and appearance at an affordable price.

## Features & Options

### ■ Why use Uniweb RX systems?

*Uniweb is synonymous with flexibility and durability.* Retailers can future-proof their existing space by employing more profitable, high-density fixtures. These long-lasting units can be easily updated and reconfigured,

ensuring your space grows with your sales demands. Uniweb products are prewired with data and electrical, and are easy to install, reducing administrative and construction costs.

Uniweb RX bays maintain uninterrupted inventory shelving, with no breaks between or behind bays, and accommodates the tallest bottle, meaning no wasted space. Pharmacy staff does not need to remove drugs from the RX tray when repositioning on the panel. This system will increase product storage by a minimum of 17% and, in some cases, by as much as 50%. Uniweb RX systems are the smart choice for any retailer looking to optimize their space and increase profits.

Most importantly, Uniweb takes pride in its commitment to domestic sourcing and operations. From design to installation, Uniweb ensures that each room or fixture meets retailers' operational requirements, helping merchants achieve their sales goals.

## Product Lines

### ■ Beyond The Pharmacy

Looking to give your store a fresh new look? Uniweb's *Retrofit Crew* can help! Our retrofit options allow you to increase product facings without changing your existing fixtures.

**Variety Panel:** Continuous channels and no upright interruptions. This all-steel merchandiser increases product facings by 17% or more! Easy to install. Attach appropriate brackets and insert them into your existing upright unit.

**Allied Panel:** Short insert hooks welded onto the panel frame allow panels to lock into existing uprights easily. Panels may also extend beyond gondola height, creating additional merchandising space.

**Insert Panel:** Replaces torn and inefficient pegboard. Simply remove the pegboard and insert Uniweb into existing store uprights, permitting the use of existing shelving.

### Pushing Density To The Limit!

## Markets Served

We serve pharmacies, hospitals, clinics, general retail, universities, veterinarian offices, and convenience stores.
