## Company Background

Founded 50 years ago, Comprehensive Pharmacy Services, LLC (CPS) is one of the nation's largest providers of pharmacy services for hospitals and healthcare facilities. Serving more than 800 partners with the best in technology, resources, and process solutions, CPS empowers healthcare leaders to tackle complex challenges affecting their pharmacies. Through a suite of value-added solutions, CPS provides support for inpatient pharmacy management, pharmacy consulting, 340B, telepharmacy, specialty pharmacy, material management, rehabilitation, and more. These solutions position healthcare leaders to realize excellence within their pharmacy — clinically, operationally, and financially — all while supporting patients, caregivers, and staff.

## Product Overview

A national leader in pharmacy management solutions, CPS delivers expertise and resources to ensure that pharmacies reach their full potential.

## Suite of Solutions

### ■ CPS Inpatient Solutions

CPS Inpatient Pharmacy Management and Consulting Solutions support pharmacies in achieving performance excellence. For leaders seeking to revitalize their pharmacies, these solutions leverage expertise, proprietary technologies, and resource solutions delivered by subject matter experts to generate transformational improvements and measurable ROI. Inpatient management and consulting solutions are tailored to meet the unique needs of each partner site and prioritize their initiatives, such as cost savings, regulatory compliance, waste mitigation, and antimicrobial stewardship. CPS delivers advanced pharmacy performance and excellence across the continuum and grants healthcare leaders the vision and support required to make the most of their pharmacies.

### ■ CPS TELEpharmacy

CPS TELEpharmacy delivers seamless 24 hours a day, seven days a week, 365 days per year, remote licensed pharmacy support to provide local pharmacy teams with additional supportive operational bandwidth. Remote order entry and verification provides support via HIPAA-compliant connections to help with processing, entry, and

verification of incoming orders. Transitions of Care supports existing admission, discharge, and follow-up care routines. Telepharmacy solutions have been proven to reduce readmissions, lower costs, and improve clinical outcomes. The CPS TELEpharmacy team serves hospitals and healthcare organizations nationwide by enabling their in-house pharmacy teams to streamline how they operate while committing greater focus to clinical care.

### ■ CPS 340B Solutions

Leverage exceptional 340B program knowledge and expertise to make the most of your 340B program. A leader in 340B program compliance since inception in 1992, CPS 340B teams guide covered entities in achieving compliance while maintaining a constant state of readiness for audit. CPS 340B Optimization further supports covered entities as they strive to make the most of their program via improved referral capture, program expansion, identification of purchasing opportunities, and more.

### ■ Specialty and Ambulatory Solutions — SPARx

SPARx empowers healthcare leaders to realize their vision for specialty and ambulatory pharmacy through best-in-class processes, software, and expertise. SPARx provides a comprehensive set of solutions addressing all facets of the outpatient pharmacy ecosystem including retail, specialty pharmacy, and infusion. SPARx partnerships bring commercial, independent, and hospital-owned specialty pharmacy expertise to bear to empower healthcare organizations to own their specialty pharmacy and associated revenue stream. SPARx also drives access to payer networks, LDDs, and reimbursement optimization.

### ■ CPS Rehabilitation Services

The CPS Rehabilitation Services team brings a patient-focused, data-driven approach for departments seeking to improve performance and outcomes. With an emphasis on compliance and operational efficiency, the CPS Rehabilitation Services team delivers excellence while exceeding expectations to delivering operational excellence through physical, occupational, speech rehabilitation, and management services.

### ■ CPS Supply Chain Solutions

The CPS Supply Chain Solutions team guides materials management in helping facilities achieve new levels of quality and performance through best-in-class solutions. CPS leverages proprietary software to maintain visibility to performance via real-time cost savings monitoring, department goal tracking, KPI benchmarking, and vigilance to upcoming contract renewals. The CPS team positions materials management teams for success by ensuring communication with supply chain partners when shortages and other critical issues arise.
