

WAY 2

SMART SINK™ A “Go Green” Alternative for Pharmaceutical Waste Disposal

The SMART SINK™ system securely stores and acutely renders unused drugs unusable and unrecoverable, and can be installed in any location where drugs are typically administered. This new, innovative system accepts pills, patches and liquids and utilizes secured disposable cartridges for proper pharmaceutical waste disposal.

Company Background

Cactus™, LLC and the SMART SINK™ concept was developed by its CEO and founder, Dave Maness to provide a simple and environmentally-friendly solution for pharmaceutical waste. Cactus™, LLC is located in Charleston, SC and will soon be providing secured pharmaceutical waste solutions to health care facilities in the US and Canada.

Product Overview

The Cactus™ Smart Sink™ is designed to safely and easily dispose of pharmaceutical waste that would otherwise be discarded in a sharps container, waste bin, toilet or sink. This innovative, “Go Green” system helps bring your medical facility into compliance by simplifying the pharmaceutical waste process. It also acutely renders drugs “unrecoverable” and unusable so discarded pharmaceutical waste doesn’t end up in the wrong hands, or negatively impact the environment. The Cactus™ Smart Sink™ allows for a careful balance of pharmaceutical waste control and environmental concern.

The SMART SINK™ can be installed in any location, or where drugs are typically administered. This secured system renders unused drugs unrecoverable in the acute setting, protects the environment, and significantly reduces opportunities for drug diversion.

Typical Hospital Locations

Nursing Stations, Patient Rooms, Next to drug dispensing equipment, labs, OR, ER, Cath Labs, Procedure rooms, Surgery Centers, Radiology, Portable Patient Carts, Hospital Pharmacies, ICU, CCU, Oncology, Outpatient Centers

- SMART SINK™ dimensions: 15½" wide x 12½" tall x 9½" deep
- Current Capacity: Liquids Cartridge - 3.8 liters*
 Solids Cartridge - 1.7 liters*

*Capacity is approximate

Testimonials

“We are excited about the upcoming release of the new Cactus Smart Sink™. After using the product in our nursing units, we anticipate not only more efficient use of our nurses’ time, but a more secure and environmentally friendly process to dispose of medication waste.”

— Fred Bender, PharmD/Director, Pharmacy Services
 Greenville Hospital System University Medical Center, Greenville, SC

“I have had the opportunity to observe the Cactus Smart Sink™ from its concept to the innovative waste product it is today. The Smart Sink™ uses clean, convenient and green technology to address the regulatory compliance of small drug waste needs that were previously disposed of in the regular waste stream.”

— Phil Creger, Pharm.D, MHA
 Director of Pharmacy
 Roper, Saint Francis Healthcare
 Charleston, SC

Going Green

Cactus™, LLC is the first to offer a secured, “Go Green” concept for pharmaceutical waste to help protect our environment.
