## Company Background

Helmer is a manufacturer and worldwide distributor of cold chain storage and processing laboratory equipment. We have over 35 years of experience in providing high-quality temperature controlled environments. Our products are used in over 100 countries throughout the world. Helmer originated in the blood bank market where precise temperature control is essential to the successful storage and transfusion of products. These same principles have been applied to the design and development of our pharmacy products.

## Product Overview

The i.Series® Pass-Thru Refrigerator offers an optimal solution for Pharmaceutical storage. Available in 26.5 and 58 cu ft models, these units are designed with the high-quality standards required for patient care. The i.C3® user interface introduces a whole new level of control to the user with constant temperature monitoring and control, and multiple information logs with historical data that can be downloaded and saved. i.Act™ event acknowledgement allows users to immediately record corrective actions on-screen at the time of the event and download records to maintain quality control data.

## Additional Products / Models

i.Series® and Horizon Series™ Pharmacy Refrigerators are available in 5 cf, 11cf, 20cf, 25cf, 45cf, and 56cf models.

## GPO Affiliations

GSA, MedAssets, Broadlane, Premier, Amerinet, Adventist, ARC, Magnet, BGA

## Features

- Superior chamber temperature uniformity and quick recovery with heavy-duty, forced-air refrigeration system
- i.C3® full-color touchscreen user interface provides constant temperature monitoring and control, on-screen event acknowledgement, and upload/download capabilities. It is ergonomically placed at eye-level and includes an interactive temperature graph, home screen customization, and password protection
- Helps meet USP797 Clean Room Requirements with covered top on clean room, finish trim kit and skirt, and easy-clean surfaces
- Bacteria-resistant powder coated exterior and interior provides added security
- Reduced humidity levels create a dry storage environment ideal for storing boxes and other containers
- Custom storage options include drawers, roll-out baskets, shelves, locking drawers, and storage trays
- Pass-Thru drawer mid-stop catch ensures proper closure to maximize airflow, maintain temperature uniformity, and protect glass doors from slide throughs
- Adjustable LED lighting provides energy-efficient illumination with auto-on feature and ON/OFF switch
- ADA compliant door handle
