**Address:** 27 Great Pond Drive  
 Boxford, MA 01921  
**Website:** [www.iatric.com](http://www.iatric.com)

## Company Background

Since 1990, more than 1,000 hospitals worldwide have implemented Iatric Systems solutions, optimizing patient care and staff workflow in clinical, financial and administrative areas. Recognized by Inc. 5000 as one of the fastest growing privately held companies for the past four years, Iatric Systems helps hospitals and health systems leverage their HIS investment with software, interfaces and reporting services. In 2009, 2010 and 2011 Iatric Systems was acknowledged on the Healthcare Informatics Top 100 Healthcare IT Revenue list and the Modern Healthcare Top 100 Best Places to Work in Healthcare IT. To learn more, or to sign up for an online webcast demonstration of Pharmacy Dashboard, please contact [info@iatric.com](mailto:info@iatric.com) or visit <http://pages.iatric.com/PhaDash.html>.

## Product Overview

Automating CPOE and the electronic medication administration record (eMAR) are great achievements for any hospital. However, Pharmacy process changes can be overwhelming without the proper tools in place. Pharmacy Dashboard alerts staff quickly when unverified medication orders exist. Color, flashing and audible alarms give pharmacy staff peace of mind and improve turnaround time for order verification.

Pharmacy Dashboard also provides an internal communication tool to facilitate order follow-up, recommendations and improved communication among pharmacy staff members. This results in fewer phone calls and eliminates the need to rely on paper notes. Pharmacy staff can see electronic dashboard notes from any location throughout the facility, even when connecting remotely.

Pharmacy Dashboard takes the guesswork out of medication order verification and processing.

## Features & Options

- Visual and audible alerts when new orders are filed
- Improved workload management
- Enhanced communication for pharmacy staff
- Improved turnaround time
- Complements MEDITECH PHA, BMV and POM

## Additional Product Lines

- Medication Reconciliation
- Patient Discharge Instructions
- Patient Safety Management

## Trade Shows / Meetings Attended

- International MUSE
- ASHP Midyear Clinical Meeting

## Ordering Information

We invite you to see Pharmacy Dashboard in action from the comfort of your own office. We will be hosting public, online webcast demonstrations of Pharmacy Dashboard this summer. To register to attend one of these webcasts, please visit <http://pages.iatric.com/PhaDash.html> or scan the QR code on the previous page using your smart phone. If you would like to schedule a private online demonstration, please email [info@iatric.com](mailto:info@iatric.com).
