**Local Phone Number:** (516) 599-3620  
**Website:** www.lifewatch-usa.com  
**Email:** info@lifewatch-usa.com

## Company Background

Family owned since 1980, second generation business. Current President is the son of the founder (deceased since 2007). Over the last four years, Lifewatch has become a household name with Dick Van Patten as our spokesperson, equipment powered by Bosch, and the introduction of several revolutionary senior safety healthcare products. Such products include the Anywhere Alert 911 and our Mobile GPS Alert – help away from home, like Onstar in your hand. Also, our Medication Monitoring and “Pilltext” medication reminder systems: We can tell if family members have not taken their medicine without being in the home. As well as Pharmacy Express – a direct connect speed dialer to pharmacies for refills and the Medilok, world’s first healthcare dedicated lockbox, for easy entrance by an ambulance without the worry of a broken door.

## Program Overview

Lifewatch provides a tabletop display including brochures with a unique code for tracking sales. You or your customers simply call our 800 number and order. Lifewatch does the selling on the phone and ships product direct to customers. Clients pay \$29.95/mo and get a waterproof necklace or bracelet and a Bosch medical alarm voice box. Also, a free Medilok lockbox (\$40 value) and a free Pharmacy Express button are included.

## Product Overview

Clients simply press the button when alone (fall, emergencies, stroke, fire, burglary, etc) and the Lifewatch EMT staffed Care Center speak live, handsfree, 24/7 direct with the client and gets them help. Before the client presses their button, Lifewatch has their medications and medical conditions on file, including numbers of friends and family. Help arrives in minutes.

## Testimonials

*“Thank you! This has been a fabulous service with great customer service. Lifewatch customer service representatives are always looking out of my best interest. It gives us all peace of mind and when alarm used worked like a charm!”*

— Tina-Ann

*“Thank you! Your service saved my mother-in-law’s life twice... Lifewatch should be called Lifesaver. You are very professional.”*

— Christina F.

*“We are very grateful for the personal relationship you had with our mother, your full awareness of her living situation, and/or the special treatment you accorded her. We are grateful, too, for the speed with which you intervened in times of crisis, and for the judiciousness you showed in determining what interventions were most appropriate at any give time.”*

—Adele S.

## Next Steps

To start referring and displaying Lifewatch for FREE, simply call or email Andy Boyle or Sarai Baker at 1-800-716-1433 or andy@lifewatch-usa.com, sarai@lifewatch-usa.com, and a Lifewatch start up kit will be mailed to your pharmacy.
