Medi-Dose®, Inc.
EPS®

Company Background

Medi-Dose/EPS was founded in 1971 when Milton Braverman, a former pharmaceutical company Territory Manager, saw the need for inexpensive, manual unit dose packaging allowing a hospital to convert from traditional dispensing. He developed the Medi-Dose System to package, handle and dispense predetermined amounts of medication so they would be accessible for one regular dose.

Because of the continued success of the Medi-Dose System, Medi-Dose/EPS expanded its product line to include the TampAlerT System offering tamper-evident liquid packaging, without the need for heat tunnels and accessory sealing equipment, and a full line of supplies and disposable products designed specifically for the pharmacy and health care professional.

Program Overview

Often, the most important interaction you will have with the other members of your patient care team will be through your labels. It is imperative that you clearly and concisely communicate the information they need to provide the best possible care and to avoid costly mistakes.

Our MILT bar coding and labeling software as well as all of our labeling products have been selected or created with the input of professionals like you. Benefit from the real world experience of your peers by using these labeling products to help your team work safely and effectively.

Labeling Solutions

- Unit Dose Packaging and Bar Coding Applications
- Pharmacy Auxiliary Labels
- Line Tracing Labels
- LiquiDose and TampAlerT Tamper-Evident Labeling
- ShrinkSafe Paralytic Agent ID Bands
- Stock STERILE Labels
- IV Medication Additive Labels
- General Purpose Tape
- Nursing Chart Tape
- Nursing Label Tape
- Laboratory Label Tape
- Laser/Photocopier Data Processing Labels
- Dot Matrix Printer Data Processing Labels

Complementary Labeling Software

MLT 3.0, MLT 2.6, Medi-Dose 2000, IV Profile/Label Software

Trade Shows / Meetings Attended

ASHP Midyear, ASHP Summer, Joint Forces Pharmacy Seminar, National Pharmacy Purchasing Association, various state & regional pharmacy conferences.
